1.9 Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes³¹

- 1.9.1 It has been decided that there would be two-tiered structure for benchmarking of schemes for certain categories of schemes. The first tier benchmark shall be reflective of the category of the scheme, and the second tier benchmark should be demonstrative of the investment style / strategy of the Fund Manager within the category. All the benchmarks followed should necessarily be Total Return Indices.

- 1.9.2 The following are the guiding principles for first tier benchmarks:

For Income / Debt Oriented Schemes

First Tier: One Broad Market Index per Index Provider for each category e.g.: NIFTY Ultra Short Duration Debt Index or CRISIL Ultra Short Term Debt Index for Ultra Short Duration Fund Category

Second Tier: Bespoke according to Investment Style/Strategy of the Index e.g.: AAA Bond Index

For Growth / Equity Oriented Schemes

First Tier: One Broad Market Index per Index Provider for each category e.g.: S&P BSE 100 Index or NSE 100 Index for Large Cap Fund Category

Second Tier: Bespoke according to Investment Style/Strategy of the Index e.g.: Nifty 50 Index

For Hybrid and Solution Oriented Schemes:

³¹SEBI Circular No. SEBI/IMD/CIR No 18 / 198647 /2010 dated March 15, 2010, SEBI circular no. SEBI/HO/IMD/IMD-II DF3/P/CIR/2021/652 dated October 27, 2021. Refer SEBI letter No. SEBI/HO/IMD/POD-II/P/OW/2023/50162/1 dated December 14, 2023

There would be a single benchmark, i.e., Broad Market Benchmark wherever available or bespoke to be created for schemes, which would then be applicable across industry.

For Thematic / Sectoral schemes:

There would be a single benchmark as characteristics of the schemes are already tapered according to the theme/sector.

For Index Funds and Exchange Traded Funds (ETFs):

There would be a single benchmark as these schemes replicate an underlying index.

For Fund of Funds Schemes (FoFs):

Similar to Index Fund and ETFs, if a FoF scheme is investing in a single fund, then benchmark of the underlying scheme shall be used for corresponding FoF.

However, in case a FoF scheme invests in multiple schemes, then Broad Market Index shall be applied.

For Other Schemes:

Depending on underlying asset allocation, Broad Market benchmark may be arrived at.

1.9.3 AMFI has been advised to publish:

- a) Benchmarks intended to be used by AMCs as first tier benchmarks
- b) Benchmarks intended to be used as first tier benchmark as per the Potential Risk Class Matrix from April 1, 2022 by AMCs for open ended debt schemes.

1.9.4 The second tier Benchmark is optional and shall be decided by the AMCs according to Investment Style/Strategy of the Index.

1.10 New Fund Offer (NFO) Period³²

1.10.1 In case of open ended and close ended schemes (except ELSS schemes), the NFO should be open for 15 days.

[1.10.1A All NFO shall remain open for subscription for a minimum period of three working days.]³³

1.10.2 The NFO period in case of ELSS schemes shall continue to be governed by guidelines issued by Government of India.

1.10.3 Mutual Funds/AMCs are allowed to deploy the NFO proceeds in triparty repo on Government securities or treasury bills ³⁴ before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in triparty repo on Government securities or treasury bills during the NFO period. The appreciation received from investment in triparty repo on Government securities or treasury bills shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in triparty repo on Government securities or treasury bills shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

1.10.4 The mutual fund should allot units/refund of money and dispatch statements of accounts within five business days from the closure of the NFO and all the schemes (except ELSS) shall be available for ongoing repurchase/sale/trading within five business days of allotment.

1.11 Timelines related to processing of scheme related applications filed by AMCs³⁵

1.11.1 The application filed by AMCs for the following matters may be deemed to be taken on record in case no modifications are suggested or no queries are raised by SEBI within 21 working days:

- a) Change in the Fundamental Attributes of a scheme
- b) Merger/Consolidation of Schemes
- c) Rollover of Close-ended schemes
- d) Conversion of Close-ended scheme to Open ended schemes.

1.11.2 In respect of applications filed by AMCs under Regulation 24 (b) of SEBI (Mutual Funds) Regulations, 1996, no objection will have been deemed to be communicated in case no modifications are suggested or no queries are raised by SEBI within 21 working days.

1.11.3 The timelines mentioned at Paragraph 1.11.1 and 1.11.2 above shall generally be adhered to -

- (a) provided the application is complete in all respects and in compliance with all the relevant Regulations and circulars issued by SEBI.

1.12 *Restriction on Redemption in Mutual Funds*³⁶

1.12.1 In order to bring more clarity and to protect the interest of the investors, the following requirement shall be observed before imposing restriction on redemptions:

1.12.1.1 Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:

1.12.1.1.1 Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. AMCs should have in place sound internal liquidity management tools for schemes. Restriction on redemption cannot be used as an ordinary tool in order to manage the liquidity of a scheme. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision, shall not be allowed.

1.12.1.1.2 Market Failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.

1.12.1.1.3 Operational Issues - when exceptional circumstances are caused by *force majeure*, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only

³⁶ SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/57 dated May 31, 2016

be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems.

1.12.1.2 Restrictions on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.

1.12.1.3 Any imposition of restriction would require specific approval of Board of AMCs and Trustees and the same should be informed to SEBI immediately.

1.12.1.4 When restriction on redemption is imposed, the following procedure shall be applied:

1.12.1.4.1 No redemption requests up to INR 2 lakh shall be subject to such restriction.

1.12.1.4.2 When redemption requests are above INR 2 lakh, AMCs shall redeem the first INR 2 lakh without such restriction and remaining part over and above INR 2 lakh shall be subject to such restriction.

1.12.2 **Disclosure:** The above information to investors shall be disclosed prominently and extensively in the scheme related documents regarding the possibility that their right to redeem may be restricted in such exceptional circumstances and the time limit for which it can be restricted.

1A.1 Regulatory Framework for Sponsors of a Mutual Fund⁴³

- ii. In this regard, the following has been decided.

 - b. The sponsor's stake in the proposed AMC shall be free from any encumbrance at all times.
- iii. In terms of clause (iv) to the first proviso to Regulation 7 (a) of the MF Regulations, the sponsor has to ensure that in case of acquisition of an existing AMC, the sponsor shall have minimum positive liquid net worth equal to incremental capitalization required to ensure minimum capitalization of the AMC and the positive liquid net worth of the sponsor or the

1A.1.3.D Reduction of stake and disassociation of sponsor

- i. Considering the evolution of the Mutual Fund industry and significant shift in the nature of roles and responsibilities of the AMCs in the last few decades, most of the AMCs can be stated to be prepared enough to stand on their own and create trust among their investors. In view of the above, it has been decided to allow a sponsor to voluntarily reduce its stake in an AMC subject to certain conditions.
- ii. Regulations 7C (1) and 7C (2) of the MF Regulations permit a sponsor to disassociate itself from an AMC and a Mutual Fund and allow such AMC of an existing Mutual Fund to act as sponsor of the same Mutual Fund in the event of the sponsor disassociating itself from the AMC.

- iii. In view of the above, it has been decided that an AMC can become a “self- sponsored AMC”, subject to fulfilling the following conditions:
- a. The AMC should have been carrying on business in financial services for a period of not less than 5 years;
 - b. The AMC should have positive net worth in all the immediately preceding five years;

- a. Within a period of 5 years in case of listed AMCs.
 - b. Within a period of 3 years in case of unlisted AMCs.

- c. During the above period, the obligations of an outgoing sponsor shall be as per the applicable regulatory framework for a sponsor.
 - d. The sponsor shall commit to a graded stepwise reduction over the applicable time period.
- vii. Post disassociation of any sponsor from an AMC, all the shareholders of such AMC shall be classified as “financial investors” and there shall not be any sponsor of such AMC.
- viii. Post disassociation, the upper limit of shareholding for any financial investor shall be below 10%.
- ix. Any sponsor proposing to disassociate itself shall undertake to honour all the obligations applicable to it under Regulation 38 of MF Regulations (Guaranteed Returns) as on proposed date of disassociation.
- x. A self- sponsored AMC shall maintain the minimum net worth requirement as per SEBI MF Regulations on a continuous basis.
- xi. The statutory auditor of a Mutual Fund shall submit a compliance report on the fulfilment of eligibility criteria by a self- sponsored AMC, as defined at paragraph 1A.1.3.D (iii) above on an yearly basis. The trustees and Board of a self-sponsored AMC shall provide a compliance status to SEBI in the half yearly and quarterly compliance reports furnished by them respectively.
- xii. The constitution of trustee company of a self- sponsored AMC shall be as under:

- a. In case of trustee company of a MF with an unlisted AMC, the shareholding of trustee company shall be a mirror image of the shareholding of the AMC at all times.
 - b. In case of trustee companies of a MF with a listed AMC, the financial investors shall continue to hold shares in the trustee company that is a mirror image of their holding in the AMC. Further, the shareholding in the trustee company that is equivalent to the public shareholding in the AMC, shall be held with a trust whose beneficial owner shall be the erstwhile sponsor with Independent directors of the trustee company as its trustees.
- xiii. Regulation 14 of the MF Regulations has been amended specifying signatory to the trust deed in case of disassociation of the sponsor. In this regard, it has been decided that upon disassociation of the sponsor, the largest financial investor shall be the signatory to the trust deed instead of the sponsor.

1A.1.3.E Re- Association of the Sponsor(s)

- i. Regulation 7C (5) of the MF Regulations provides for the dissociated sponsor as described at paragraph 1A.1.3.D above or any new entity to become sponsor of the Mutual Fund managed by the self- sponsored AMC, in case the AMC fails to meet the conditions specified at paragraph 1A.1.3.D (iii) above.
- ii. In this regard, for the scenarios mentioned at paragraph 1A.1.3.E (i) above, it has been decided that a disassociated sponsor and/or any new entity can become sponsor of a Mutual Fund subject to the following conditions:

- a. If the AMC fails to meet the criteria of self-sponsored AMC as defined at paragraph 1A.1.3.D (iii) above, a cure period of one year shall be provided within which, the AMC shall be required to meet the criteria for self-sponsored AMCs.
 - b. If even after the cure period, the AMC fails to meet the conditions for self- sponsored AMCs, then either the disassociated sponsor or any new entity shall become sponsor of the concerned Mutual Fund.
 - c. The proposed sponsor should meet all the requirements and obligations specified in MF Regulations pertaining to the sponsors and,

PART IV – CATEGORIZATION AND RATIONALIZATION OF MUTUAL FUND SCHEMES⁶³

It is desirable that different schemes launched by a Mutual Fund are clearly distinct in terms of asset allocation, investment strategy etc. Further, there is a need to bring in uniformity in the characteristics of similar type of schemes launched by different Mutual Funds. This would ensure that an investor of Mutual Funds is able to evaluate the different options available, before taking an informed decision to invest in a scheme.

In order to bring the desired uniformity in the practice, across Mutual Funds and to standardize the scheme categories and characteristics of each category, it has been decided to categorize the MF schemes as given below:

2.6 Categories of Schemes, Scheme Characteristics and Type of Scheme (Uniform Description of Schemes)⁶⁴:

2.6.1 The Schemes would be broadly classified in the following groups:

4.2 Stress Testing of Liquid Fund and Money Market Mutual Fund Schemes¹¹⁷

- 4.2.1 As a part of risk management framework, Mutual Funds (MFs) carry out stress testing of their portfolio, particularly for debt schemes. In order to standardize this practice across industry, AMFI came out with Best Practice Guidelines dated September 12, 2014 on stress testing of Liquid Funds and Money Market Mutual Fund Schemes (MMMFs).
- 4.2.2 In order to further strengthen the risk management practices and to develop a sound framework that would evaluate potential vulnerabilities on account of plausible events and provide early warning on the health of the underlying portfolio of Liquid Fund and MMMF Schemes, it has been decided to stipulate the following guidelines:
 - 4.2.2.1 As a part of the extant risk management framework, AMCs should have stress testing policy in place which mandates them to conduct stress test on all Liquid Fund and MMMF Schemes.
 - 4.2.2.2 The stress test should be carried out internally at least on a monthly basis, and if the market conditions require so, AMC should conduct more frequent stress test.
 - 4.2.2.3 The concerned schemes shall be tested on the following risk parameters, among others deemed necessary by the AMC:
 - a) Interest rate risk;
 - b) Credit risk;
 - c) Liquidity & Redemption risk.

¹¹⁷ SEBI Circular No. CIR/IMD/DF/03/2015 dated April 30, 2015. Refer SEBI email dated February 27, 2024.

- 4.2.2.4 While conducting stress test, it will be required to evaluate impact of the various risk parameters on the scheme and its Net Asset Value (NAV). The parameters used and the methodology adopted for conducting stress test on such type of scheme, should be detailed in the stress testing policy, which is required to be approved by the Board of AMC.
- 4.2.2.5 Further, in the event of stress test revealing any vulnerability or early warning signal, it would be required to bring it to the notice of the Trustees and take corrective action as deemed necessary, to reinforce their robustness. Each AMC should also be required to have documented guidelines, to deal with the adverse situation effectively.
- 4.2.2.6 Such stress-testing policy shall be reviewed by the Board of AMC and Trustees, at least on an annual basis, in light of the evolving market scenarios and should cover the following aspects:
- i. Adequacy of the documentation for various elements of the stress testing framework

Based on the alerts generated, the AMCs shall take appropriate measures and report the same to trustees.

information which could materially impact the price of the concerned securities.

viii. The Compliance Officer shall maintain all other regulatory checks and obtain necessary undertakings from the Access Person.

- f. Any transaction of Front Running by any employee directly or indirectly is strictly prohibited. For this purpose, "Front Running" means any transaction of purchase and/or sale of a security carried by any employee whether for self or for any other person, knowing fully well that the AMC also intends to purchase and/or

While MF Regulations provide for restrictions to address certain scenarios of conflict of interest, there are other areas of conflict which require specific attention from the Trustees.
- 6.7A.2 At the same time, as an AMC is responsible for managing the funds of the schemes, the board of directors of the AMC is also accountable to ensure that the interests of the unitholders are protected.
- 6.7A.3 SEBI had constituted a Working Group with a view to streamline the responsibilities at the level of the Trustees and AMCs, to deliberate and make recommendations for ensuring that Trustees can devote their attention to the fiduciary obligations and supervisory role cast upon them. Accordingly, amendments were carried out in MF Regulations. The amendments were notified on June 27, 2023 ([link](#)).

- 6.10.1.11 Designated Employees may set off their existing investments as on July 01, 2021, if any, against the fresh investments as required in the same schemes.

PART II -SCHEME GOVERNANCE

6.11 Minimum Number of investors²⁴⁰

6.11.1 Applicability for an open-ended scheme

6.11.1.1 The Scheme/Plan shall have:

- a. a minimum of 20 investors and
- b. no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s).

6.11.1.2 If either/both of such limit(s) is breached during the NFO of the Scheme, it shall be ensured that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions.

6.11.1.3 In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation²⁴¹ would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV.

6.11.1.4 The average net assets of the scheme would be calculated daily and any breach of the 25 % holding limit by an investor would be determined. At the end of the quarter, the average of daily holding by each such investor is computed to determine whether that investor has breached the 25 % limit over the quarter. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter

²⁴⁰ SEBI Circular No. SEBI/IMD/CIR No.10/22701/03 dated December 12, 2003, SEBI Circular No. SEBI/IMD/CIR No.1/42529/05 dated June 14, 2005.

²⁴¹ Regulation 39(2)(c) of the SEBI (MF) Regulations, 1996

the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period.

6.11.1.5 The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI.

6.11.1.6 The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

6.11.2 Applicability for a Close ended scheme/Interval scheme

6.11.2.1 The Scheme(s) and individual Plan(s) under the Scheme(s) shall have:

- a. A minimum of 20 investors and
- b. No single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s).

6.11.2.2 These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment.

6.11.2.3 In case of non-fulfillment with the condition of minimum 20 investors, the Scheme(s)/Plan(s) shall be wound up in accordance with Regulation²⁴² automatically without any reference from SEBI.

6.11.2.4 In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be

²⁴² Reg. 39 (2) (c) of SEBI (MF) Regulations, 1996

liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 6 weeks of the date of closure of the New Fund Offer.

6.11.2.5 For interval scheme the aforesaid provision will be applicable at the end of NFO and specified transaction period.

6.11.2.6 Requisite disclosure in this regard shall be made in the SID.

6.11.3 Determination of breach:

6.11.3.1 The average shall be calculated, at the end of each quarter, on the basis of number of investors at the end of the business hours of the scheme on a daily basis.

6.11.3.2 To determine breach of 25% holding limit by an investor, net assets under the scheme shall be calculated daily and the daily holding limit shall be determined accordingly. At the end of the quarter, average daily holding by each investor shall be calculated and any breach of the 25% holding limit will be accordingly determined.

6.11.4 Applicability

6.11.4.1 These Guidelines are applicable at the Portfolio level.

6.11.4.2 These Guidelines are not applicable to Exchange Traded Funds (ETFs).

6.11.5 Redemptions

6.11.5.1 Redemptions effected pursuant to these Guidelines shall be completed within 10 days from the day of winding up of the scheme(s) and/or plan(s).

6.11.6 Reporting to the Board

6.11.6.1 Compliance with these Guidelines shall be reported in Compliance Test Reports (CTRs) and Half Yearly Trustee Reports (HYTRs).

6.12 *Minimum Assets under Management (AUM) of Debt Oriented Schemes*²⁴³

6.12.1 It has been observed that many debt oriented schemes are operating with a very low AUM. In the interest of investors, it is important that debt oriented schemes have an adequate corpus to ensure adherence to the investment objectives as stated in Scheme Information Document and compliance with investment restrictions specified under SEBI (Mutual Funds) Regulations, 1996.

6.12.2 In this regard, it has been decided that:

6.12.2.1 The minimum subscription amount of debt oriented and balanced schemes at the time of new fund offer shall be at least 20 crore and that of other schemes shall be at least 10 crore, except for following:

- i. Minimum subscription amount at the time of New Fund Offer (NFO) for Debt ETFs/ Index Funds and other ETFs/ Index Funds shall be INR 10 Cr. and INR 5 Cr. respectively.²⁴⁴

6.12.2.2 An average AUM of 20 crore on half yearly rolling basis shall be maintained for open ended debt oriented schemes.

6.12.2.2A [In case of breach of para 6.12.2.2 above, the AMC shall scale up the AUM of such scheme within a period of six months so as to comply with para 6.12.2.2 above, failing which the provisions of Regulation 39(2)(c) of MF Regulations would become applicable.]²⁴⁵

6.12.2.3 The confirmation on compliance of the above shall be reported to SEBI in the Half Yearly Trustee Reports.

6.12.2.4 Alternative to launch of NFO for ETFs, the AMC may contribute the initial fund for unit creation. Subsequently, the AMC can transfer the units of such ETFs to Market Makers or other investors, subject to compliance with all applicable provisions for launch of ETFs.²⁴⁶

6.13 Scheme Performance Review

6.13.1 AMCs and Trustees shall review the performance of their schemes on periodic basis²⁴⁷. Such review can take place by comparing the performance of the schemes with benchmark indices as well as in light of the performance of the entire Mutual Funds industry by relying on data published from time to time by independent research agencies and financial newspapers and journals. Corrective action if required may be taken in case of unsatisfactory performance. Its compliance should be reported in the quarterly²⁴⁸ CTRs of AMCs and half-yearly reports of the Trustees to SEBI (while reporting compliance of Regulation 25(2) on exercise of due diligence in investment decisions).

6.14 Benchmarking of Scheme's performance to Total Return Index²⁴⁹

- 6.14.1 Total Return variant of an Index (TRI) takes into account all dividends/ interest payments that are generated from the basket of constituents that make up the index in addition to the capital gains. Hence, TRI is more appropriate as a benchmark to compare the performance of mutual fund schemes.
- 6.14.2 With an objective to enable the investors to compare the performance of a scheme vis-a-vis an appropriate benchmark, it has been decided that -
 - 6.14.2.1 Selection of a benchmark for the scheme of a mutual fund shall be in alignment with the investment objective, asset allocation pattern and investment strategy of the scheme.
 - 6.14.2.2 The performance of the schemes of a mutual fund shall be benchmarked to the Total Return variant of the Index chosen as a benchmark as stated in paragraph 6.14.2.1 above.
 - 6.14.2.3 (i) Mutual funds shall use a composite CAGR figure of the performance of the PRI benchmark (till the date from which TRI is available) and the TRI (subsequently) to compare the performance of their scheme in case TRI is not available for that particular period(s).
(ii) The calculation of composite CAGR is elaborated with an example in the following paragraph.

²⁴⁹ SEBI circular no. HO/IMD/IMD-I DOF2/P/CIR/2021/550 dated April 12, 2021

For instance, ABC scheme had been launched on August 2, 1995. The benchmark PRI values are available from the date of inception of the fund. The benchmark TRI values are available from June 30, 1999. The calculation of a composite benchmark performance return in CAGR terms would be as given below:

1

(Time period from the last day of the month preceding the date of advertisement – date of inception of the scheme)

Benchmark PRI value as on date of <u>introduction of TRI value</u> .	X	Benchmark TRI value as on last day of the <u>month preceding the date of advertisement</u>
Benchmark PRI value as on date of inception of the scheme		Benchmark TRI value as on date of introduction of TRI value

-1

The aforesaid is explained with an example:

Example: Consolidated Benchmark CAGR (PRI and TRI)		
Date	Benchmark PRI values	Benchmark TRI values
02/08/1995	1007.57	
30/06/1999	1187.70	1256.38
30/11/2017	10226.55	13966.58
CAGR		12.20%

Thus, in the above example (for advertisements in the month of December, 2017 the last of the preceding month would be November 30, 2017),

$$\text{CAGR} = [(1187.70 / 1007.57) * (13966.58 / 1256.38) ^ {(1 / 22.3452)}] - 1$$

[1 year= 365 days]

$$\text{CAGR} = 12.20\%$$

(iii) Mutual funds shall use the composite CAGR as explained above, subject to making the following disclosure:

*As TRI data is not available since inception of the scheme, benchmark performance is calculated using composite CAGR of XYZ (name of the benchmark index) PRI values from date.... to date... and TRI values

since date...."

- b. In order to determine whether a security is thinly traded or not, the volumes traded in all recognized Stock Exchanges in India may be taken into account.
- c. For example, if the volume of trade is 1,00,000 and value is Rs.4,00,000, the shares do not qualify as thinly traded. Also if the volume traded is 40,000, but the value of trades is Rs.6,00,000, the shares do not qualify as thinly traded.
- d. Where a Stock Exchange identifies the thinly traded securities by applying the above parameters for the preceding calendar month and publishes or provides the required information along with the daily quotations, the same can be used by the Mutual Funds.
- e. If the shares are not listed on the Stock Exchanges which provide such information, then AMCs shall make their own analysis in line with the above criteria to check whether such securities are thinly traded or not and then value them accordingly.

- b. Average Capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data (which shall be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75 per cent i.e. only 25 per cent. Of the industry average P/E shall be taken as Capitalization rate (P/E ratio). Earnings per share (EPS) of the latest audited annual accounts shall be considered for this purpose.
- c. The value as per the Net Worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10 per cent for illiquidity so as to arrive at the fair value per share.
- d. In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.

- g. In case trading in an equity security is suspended up to thirty days, then the last traded price shall be considered for valuation of that security. 9.2.3 Debt and Money Market Securities³¹⁸

- a. Valuation of money market and debt securities with residual maturity of upto 30³¹⁹ days:

residual maturity of upto 30 days. Further, the amortized price shall be compared with the reference price which shall be the average of the security level price of such security as provided by the agency(ies) appointed by AMFI for said purpose (hereinafter referred to as “valuation agencies”). The amortized price shall be used for valuation only if it is within a threshold of $\pm 0.025\%$ of the reference price. In case of deviation beyond this threshold, the price shall be adjusted to bring it within the threshold of $\pm 0.025\%$ of the reference price.

2. It is further clarified that in case of floating rate securities with floor and caps on coupon rate and residual maturity of upto 30 days then those shall be valued on amortization basis taking the coupon rate as floor.
3. In case security level prices given by valuation agencies are not available for a new security (which is currently not held by any Mutual Fund), then such security may be valued on amortization basis on the date of allotment / purchase.
4. Further, with effect from April 01, 2020 onwards, amortization based valuation shall be dispensed with and irrespective of residual maturity, all money market and debt securities shall be valued in terms of paragraph b below.

- b. Valuation of money market and debt securities with residual maturity of over 30³²⁰ days:

1. All money market and debt securities including floating rate securities, with residual maturity of over 30 days shall be valued at average of security level prices obtained from valuation agencies.
2. In case security level prices given by valuation agencies are not available for a new security (which is currently not held by any Mutual Fund), then such security may be valued at purchase yield on the date of allotment / purchase.

c. Methodology:³²¹

For arriving at security level pricing, a waterfall approach shall be followed for the valuation of money market and debt securities.

1. AMFI shall ensure that valuation agencies have a documented waterfall approach for valuation of money market and debt securities. The said waterfall approach shall be documented in consultation with SEBI.
2. The following broad principles should be adopted as part of the aforesaid waterfall approach, for arriving at the security level prices:

³²¹ SEBI Circular No. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019, Refer SEBI letter No. SEBI/HO/IMD/DF4/OW/P/2019/29520 dated November 07, 2019

- i. All traded securities shall be valued on the basis of traded yields, subject to identification of outlier trades by the valuation agencies.
- ii. Volume Weighted Average Yield (VWAY) for trades in the last one hour of trading shall be used as the basis for valuation of Government Securities (including T-bills). Valuation of all other money market and debt securities (including Government securities not traded in last one hour) shall be done on the basis of VWAY of all trades during the day.
- iii. An indicative list of exceptional events shall form part of the documented waterfall approach mentioned above. In case of any exceptional events on a day, only VWAY of trades post such event may be considered for valuation. Further, all exceptional events along-with valuation carried out on such dates shall be documented with adequate justification.
- iv. All trades on stock exchanges and trades reported on trade reporting platforms till end of the trade reporting time (excluding Inter-scheme transfers), should be considered for valuation on that day. Towards this end, the timing for disclosure of Net Asset Value (NAV) on website of respective AMCs and AMFI, stands extended as per paragraph 8.1.2 (paragraph 8.2 from July 01, 2023) of this Master Circular.
- v. Considering the importance of polling in the valuation process³²², guidelines shall be issued by AMFI on polling

³²² Refer SEBI letter No. SEBI/HO/IMD/IMD-I PoD-1/P/ON/2022 dated September 27, 2022

by valuation agencies and on the responsibilities of Mutual Funds in the polling process, as part of the aforesaid waterfall approach. These guidelines shall inter-alia include the following:

- (a) Valuation agencies shall identify the Mutual Funds who shall participate in the polling process on a particular day, taking into account factors such as diversification of poll submitters and portfolio holding of the Mutual Funds. Mutual Funds who are identified by the valuation agencies shall necessarily participate in the polling process. However, in case any Mutual Fund does not participate in the polling process, detailed reason for the same shall be recorded and made available during SEBI inspections.
- (b) The minimum number of polls to be considered for valuation along-with the operational modalities of polling, shall be specified.
- (c) AMCs shall have a written policy, approved by the Board of AMC and Trustees, on governance of the polling process. The aforesaid policy shall include measures for mitigation of potential conflicts of interest in the polling process and shall identify senior officials responsible for polling.
- (d) AMCs shall ensure that participation in the polling process is not mis-used to inappropriately influence

the valuation of securities. The officials of the AMC who are responsible for polling in terms of paragraph (c) above, shall also be personally liable for any mis-use of the polling process.

- (e) AMCs shall maintain an audit trail for all polls submitted to valuation agencies.
- 3. The aforesaid waterfall approach shall form part of the valuation policy of individual AMCs which is uploaded on their respective websites. AMFI shall ensure that the said waterfall approach is also available on the website of the valuation agencies.

d. Deviation from valuation guidelines:³²³

- 1. As per the Principles of Fair Valuation specified in Eighth Schedule of SEBI (Mutual Funds) Regulations, 1996, AMCs are responsible for true and fairness of valuation and correct NAV. Considering the same, in case an AMC decides to deviate from the valuation price given by the valuation agencies, the detailed rationale for each instance of deviation shall be recorded by the AMC.
- 2. The rationale for deviation along-with details such as information about the security (ISIN, issuer name, rating etc.), price at which the security was valued vis-a-vis the price as per the valuation agencies and the impact of such deviation on scheme NAV (in amount and percentage terms) shall be reported to the Board of AMC and Trustees.

³²³ SEBI Circular No. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019

3. The rationale for deviation along-with details as mentioned under paragraph 9.2.3.d.2 above shall be disclosed immediately and prominently, under a separate head on the website of AMC.
 4. Further, while disclosing the total number of instances of deviation in the monthly and half-yearly portfolio statements, AMCs shall also provide the exact link to their website for accessing the information mentioned at paragraph 9.2.3.d.3 above.
- e. Valuation of money market and debt securities which are rated below investment grade³²⁴:
1. In order to have uniformity and consistency across the Mutual Fund industry on valuation of money market and debt securities rated below investment grade, the following has been decided:
 - i. All money market and debt securities which are rated below investment grade shall be valued at the price provided by valuation agencies.
 - ii. Till such time the valuation agencies compute the valuation of money market and debt securities classified as below investment grade, such securities shall be valued on the basis of indicative haircuts provided by these agencies. These indicative haircuts shall be applied on the date of credit event i.e. migration of the security to sub-investment

³²⁴ SEBI Circular No. SEBI/HO/IMD/DF4/CIR/P/2019/41 dated March 22, 2019 and SEBI Circular No. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019

grade and shall continue till the valuation agencies compute the valuation price of such securities. Further, these haircuts shall be updated and refined, as and when there is availability of material information which impacts the haircuts.

iii. Consideration of traded price for valuation:

- (a) In case of trades during the interim period between date of credit event and receipt of valuation price from valuation agencies, AMCs shall consider such traded price for valuation if it is lower than the price post standard haircut. The said traded price shall be considered for valuation till the valuation price is determined by the valuation agencies.
- (b) In case of trades after the valuation price is computed by the valuation agencies as referred above and where the traded price is lower than such computed price, such traded price shall be considered for the purpose of valuation and the valuation price may be revised accordingly.
- (c) The trades referred above shall be of a minimum size as determined by valuation agencies.

iv. AMCs may deviate from the indicative haircuts and/or the valuation price for money market and debt securities rated below investment grade provided by the valuation agencies subject to the following:

- (a) The detailed rationale for deviation from the price post haircuts or the price provided by the valuation agencies shall be recorded by the AMC.

- (b) The rationale for deviation along-with details such as information about the security (ISIN, issuer name, rating etc.), price at which the security was valued vis-a-vis the price post haircuts or the average of the price provided by the valuation agencies (as applicable) and the impact of such deviation on scheme NAV (in amount and percentage terms) shall be reported to the Board of AMC and Trustees.
- (c) The rationale for deviation along-with details as mentioned at Paragraph (b) above shall also be disclosed to investors. In this regard, all AMCs shall immediately disclose instances of deviations under a separate head on their website. Further, the total number of such instances shall also be disclosed in the monthly and half-yearly portfolio statements for the relevant period along-with an exact link to the website wherein the details of all such instances of deviation are available.
- v. Treatment of accrued interest, future interest accrual and future recovery³²⁵:
- (a) The treatment of accrued interest and future accrual of interest, in case of money market and debt securities classified as below investment grade or default, is detailed below:

³²⁵ SEBI Circular No. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019. Further, the Guidelines for Identification and Provisioning for Non-Performing Assets (Debt Securities) have been deleted vide SEBI Circular No. SEBI/HO/IMD/DF4/ CIR/P/2019/102 dated September 24, 2019.

1. The indicative haircut that has been applied to the principal should be applied to any accrued interest.
 2. In case of securities classified as below investment grade but not default, interest accrual may continue with the same haircut applied to the principal. In case of securities classified as default, no further interest accrual shall be made.
- (b) The following shall be the treatment of how any future recovery should be accounted for in terms of principal or interest:
1. Any recovery shall first be adjusted against the outstanding interest recognized in the NAV and any balance shall be adjusted against the value of principal recognized in the NAV.
 2. Any recovery in excess of the carried value (i.e. the value recognized in NAV) should then be applied first towards amount of interest written off and then towards amount of principal written off.

9.3 Valuation of securities with Put/Call Options:³²⁶

9.3.1 The option embedded securities would be valued as follows:

9.3.1.1 Securities with call option

- a. The securities with call option shall be valued at the lower of the value as obtained by valuing the security to final maturity and

³²⁶ SEBI Circular No. MFD/CIR/8/92/2000 dated September 18, 2000 and SEBI Circular No. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019

9.3.1.2 Securities with Put option

- a. The securities with put option shall be valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option. In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is to be taken as the value of the instruments.

9.3.1.3 Securities with both Put and Call option on the same day

- a. Only securities with put / call options on the same day and having the same put and call option price, shall be deemed to mature on such put / call date and shall be valued accordingly. In all other cases, the cash flow of each put / call option shall be evaluated and the security shall be valued on the following basis:
 1. Identify a ‘Put Trigger Date’, a date on which ‘price to put option’ is the highest when compared with price to other put options and maturity price.
 2. Identify a ‘Call Trigger Date’, a date on which ‘price to call option’ is the lowest when compared with price to other call options and maturity price.
 3. In case no Put Trigger Date or Call Trigger Date (“Trigger Date”) is available, then valuation would be done to maturity price. In

case one Trigger Date is available, then valuation would be done as to the said Trigger Date. In case both Trigger Dates are available, then valuation would be done to the earliest date.

- 9.3.2 If a put option is not exercised by a Mutual Fund when exercising such put option would have been in favour of the scheme, in such cases the justification for not exercising the put option shall be provided to the Board of AMC and Trustees.
- 9.3.3 ³²⁷In respect of valuation of securities with multiple put options present ab-initio wherein put option is factored into valuation of the security by the valuation agency, If the put option is not exercised by a Mutual Fund, while exercising the put option would have been in favour of the scheme;
1. A justification for not exercising the put option shall be provided by the Mutual Fund to the Valuation Agencies, Board of AMC and Trustees on or before the last date of the notice period.
 2. The Valuation Agencies shall not take into account the remaining put options for the purpose of valuation of the security.
- 9.3.4 The put option shall be considered as 'in favour of the scheme' if the yield of the valuation price ignoring the put option under evaluation is more than the contractual yield/coupon rate by 30 basis points.

- 9.4.4 Macaulay Duration for bonds issued under Basel III framework shall be calculated based on the deemed residual maturity as mentioned in the above table.
- 9.4.5 If the issuer does not exercise call option for any ISIN then the valuation and calculation of Macaulay Duration shall be done considering maturity of 100 years from the date of issuance for AT-1 Bonds and Contractual Maturity for Tier 2 bonds, for all ISINs of the issuer. In addition to the above, if the non-exercise of call option is due to the financial stress of the issuer or if there is any adverse news, the same shall be reflected in the valuation.

9.8.1 To ensure uniformity in calculation of NAV the following guidelines are issued:

9.8.1.1 Methodology for Valuation - unlisted equity shares of a company shall be valued "in good faith" as below:

- a. Based on the latest available audited balance sheet, Net Worth shall be calculated as the lower of item (1) and (2) below:
 1. Net Worth per share = [Share Capital + Free Reserves (excluding revaluation reserves) - Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses] / Number of Paid up Shares.
 2. After taking into account the outstanding warrants and options, Net Worth per share shall again be calculated and shall be = [Share Capital + consideration on exercise of Option and/or Warrants received/receivable by the Company + Free Reserves (excluding Revaluation Reserves) - Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses] / Number of Paid up Shares plus Number of Shares that would be obtained on conversion and/or exercise of Outstanding Warrants and Options.

³³² SEBI Circular No. MFD/CIR/03/526/2002 dated May 9, 2002

3. The lower of (1) and (2) above shall be used for calculation of Net Worth per share and for further calculation in (c) below.
 - b. Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which shall be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75 per cent. i.e. only 25 per cent of the industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share (EPS) of the latest audited annual accounts will be considered for this purpose.
 - c. The value as per the Net Worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 15 per cent for illiquidity so as to arrive at the fair value per share.

9.8.1.2 The above valuation methodology shall be subject to the following conditions:

- a. All calculations shall be based on audited accounts.
- b. If the latest Balance Sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.
- c. If the Net Worth of the company is negative, the share would be marked down to zero.
- d. In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.

- e. In case an individual security accounts for more than 5 per cent of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5 per cent of the total assets of the scheme, it shall be valued in accordance with the procedure as mentioned above on the date of valuation.
- 9.8.2 At the discretion of the AMCs and with the approval of the Trustees, unlisted equity shares may be valued at a price lower than the value derived using the aforesaid methodology.

The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

⁴⁹⁰ Please refer [format no. 3.C](#) under the section on formats

⁴⁹¹ Please refer [format no. 7.F](#) under the section on formats

⁴⁹² SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2017/109 dated September 27, 2017

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures Price / PAR})}$$

12.25.9.2 In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

12.25.9.3 Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, up to maximum of 20% of the net assets of the scheme, subject to the following:

- i. Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.
- ii. Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is at least 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Paragraph 12.24.1 above. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging up to 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- (a) The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or

- (b) The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.
- iii. At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
- iv. The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Paragraph 12.24.1 above.
- 12.25.9.4 The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.
- Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.
- 12.25.9.5 The interest rate hedging of the portfolio should be in the interest of the investors.
- 12.25.9.6 Mutual Fund schemes may imperfectly hedge their portfolio or part of their portfolio using IRFs, subject to the following conditions:

garnering funds from B-30 cities. This development would lead to setting up of distribution infrastructure by AMCs. The online phenomenon is increasing rapidly and it is observed that more and more people especially younger generation prefers online transactions. Therefore, it has been decided that all Mutual Funds should enhance the online investment facility and tap the internet savvy users to invest in Mutual Funds by providing an online investment facility on their websites. 16A.2.4.1 The units of CDMDF shall be subscribed by AMCs of Mutual Funds and “specified debt-oriented MF Schemes” (i.e., Open ended Debt oriented Mutual Fund schemes excluding Overnight funds and Gilt funds and including Conservative Hybrid funds). Contribution from specified debt-oriented MF schemes and AMCs, including the appreciations on the same, if any, shall be locked-in till winding up of the Fund. CHAPTER 16B: EXECUTION ONLY PLATFORMS (EOP)⁶¹⁵

16B.1 Execution Only Platforms for facilitating transactions in direct plans of schemes of Mutual Funds

- 16B.1.1 It was observed that various SEBI registered Investment Advisors/Stock Brokers provided execution services in direct plans of Mutual Fund schemes through their technology/digital platforms. Such platforms were often availed by investors who are not their clients in terms of SEBI (Investment Advisers) Regulations, 2013 or SEBI (Stock Brokers) Regulations, 1992.
- 16B.1.2 There was no specific framework available for technology/digital platforms (including platforms provided by Investment Advisers/Stock Brokers to non-clients) to provide execution-only services in direct plans of Mutual Fund schemes and to obtain data feeds with respect to such transactions. Thus, while the investors might have found it convenient to avail the services of such online platforms, investors who were not clients of such intermediaries under the above specified Regulations might not had recourse or protection for the risks associated with respect to such transactions. Therefore, a need was felt to strike a balance between investor convenience and investor protection.
- 16B.1.3 Pursuant to public consultation and discussions in the Mutual Funds Advisory Committee, it was decided to prescribe a framework for Execution Only Platforms for transacting in direct plans of schemes of Mutual Funds. In this regard, the SEBI (Stock Brokers) Regulations, 1992 were amended and notified on January 17, 2023.

- 
- For example, the risk depicted in the above risk-o-meter is Moderately High
- f) The detailed guidelines for evaluation of risk levels of a scheme along with few examples are provided at [Annexure 9](#)⁶²². Pursuant to a calculation of risk value of the scheme portfolio based on the methodology specified in [Annexure 9](#), risk level of a scheme as mentioned at Table 11 of [Annexure 9](#) shall be depicted by risk-o-meter shown above at Paragraph 17.4.1.(e).

- l) A disclaimer that investors should consult their financial advisers if they are not clear about the suitability of the product.

17.4.2 Risk value of commodities for risk-o-meter:⁶²³

- 17.4.2.1 For evaluation of risk value of commodities in which mutual funds are permitted to invest, in terms of Paragraph 17.4.1.(f) of this Master Circular, investment in commodities by mutual fund schemes shall be assigned a risk score corresponding to the annualized volatility of the price of the said commodity. The annualized volatility shall be computed quarterly based on past

⁶²³ SEBI Circular no. SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/49 dated April 11, 2022

15 years' prices of benchmark index of the said commodity and risk score for the commodity shall be in terms of the following table:

Annualized volatility	Risk value on risk-o-meter (Risk)
<10%	3 (Moderate)
10-15%	4 (Moderately High)
15-20%	5 (High)
>20%	6 (Very high)

Illustration: If price of gold has annualized volatility of 18% based on price of gold of past 15 years, then Gold and gold related instruments will have risk value of 5 (High) on risk-o-meter.

17.4.3 Product label shall be disclosed in:

- a. Front page of initial offering application forms, Key Information Memorandum (KIM) and Scheme Information Documents (SIDs).
- b. Common application form – along with the information about the scheme.
- c. The product label with respect to Paragraph 17.4.3.(a) & 17.4.3.(b) shall be placed in proximity to the caption of the scheme and shall be prominently visible.
- d. Scheme advertisements-placed in manner so as to be prominently visible to investors.

17.4.4 Change in risk-o-meter will not be considered as a Fundamental Attribute Change of the scheme in terms of regulation 18(15A) of SEBI (Mutual Fund) Regulations, 1996

17.5 Potential Risk Class Matrix⁶²⁴

⁶²⁴ SEBI Circular No. SEBI/HO/IMD/IMD-II DOF3/P/CIR/2021/573 dated June 07, 2021

- 17.5.1 All the debt mutual funds shall be classified in terms of a Potential Risk Class matrix consisting of parameters based on maximum interest rate risk (measured by Macaulay Duration (MD) of the scheme) and maximum credit risk (measured by Credit Risk Value (CRV) of the scheme).
- 17.5.2 While the AMCs will continue to retain the same category of their schemes as per Part IV of Chapter 2 on ‘Categorization and Rationalization of Mutual Fund schemes’ they have full flexibility to place single/multiple schemes in any cell of the Potential Risk Class matrix (PRC).
- 17.5.3 For the purpose of alignment of the existing schemes with these provisions, each scheme shall be placed in one of the 9 cells specified at Table No. 2 under Paragraph 17.5.10 below, while retaining their existing scheme category as per Part IV of Chapter 2 of this Master Circular on ‘Categorization and Rationalization of Mutual Fund Schemes’. This would not be considered as a change in fundamental attribute.
- 17.5.4 However, subsequently, once a PRC cell selection is done by the scheme, any change in the positioning of the scheme into a cell resulting in a risk (in terms of credit risk or duration risk) which is higher than the maximum risk specified for the chosen PRC cell, shall be considered as a fundamental attribute change of the scheme in terms of regulation 18(15A) of SEBI (Mutual Fund) Regulations, 1996.
- 17.5.5 Further, the Mutual Funds shall inform the unitholders about the abovementioned classification in one of the 9 cells and subsequent changes, if any, through SMS and by providing a link on their website referring to the said change.

17.5.6 For new debt schemes, the AMC shall choose the PRC cell at the time of filing of Scheme Information document (SID) with SEBI.

17.5.7 Each scheme will continue to comply with the requirements specified in Part IV of Chapter 2 of this Master Circular on ‘Categorization of schemes’.

17.5.8 The thresholds for the values of the interest rate risk and the credit risk dimensions would progress in a flexible manner for drawing out the categorization matrix. The thresholds across the matrix would determine the maximum interest rate risk and the maximum credit risk which the scheme would be permitted to take but the scheme would have the flexibility to move downwards on the risk scale. The thresholds along with an illustration of the concept outlined above are given below:

Thresholds

i. Maximum Weighted Average Interest Rate Risk of the scheme (measured in terms of Macaulay Duration):

1. Class I: MD \leq 1 year;
2. Class II: MD \leq 3 years;
3. Class III: Any Macaulay duration

ii. Maximum Weighted Average Credit Risk of the scheme (measured in terms of Credit Risk Value as specified at Table 1 below):

1. Class A: CRV \geq 12
2. Class B: CRV \geq 10
3. Class C: CRV $< 10^{625}$

⁶²⁵ Investments by mutual funds are permitted only in investment grade securities in terms of regulation 44(1) read with Schedule VII of SEBI Mutual Fund Regulations, 1996

a. The Credit Risk Value of the scheme shall be the weighted average of the credit risk value of each instrument in the portfolio of the scheme, the weights based on their proportion to the AUM. Similarly, Macaulay Duration at the scheme level shall be the weighted average of the Macaulay Duration of each instrument in the portfolio with the weights being based on their proportion to the AUM. The value of the debt instrument to be considered for calculating AUM shall include the accrued interest i.e. dirty price of the instrument.

17.5.9 The debt securities of schemes are to be assigned a value for credit risk in the following manner:

TABLE 1	
Instrument	CREDIT RISK VALUE (CRV)
G-Sec/ State development loans/ Repo on Government Securities/TREPS / Cash	13
AAA	12
AA+	11
AA	10
AA-	9
A+	8
A	7
A-	6
BBB+	5
BBB	4
BBB-	3
Unrated	2
Below investment grade	1

- a. For investment by mutual funds in instruments having short term ratings, the credit risk value shall be based on the lowest long term rating of an instrument of the same issuer as shown above (in order to follow a conservative approach) across credit rating agencies. However, if there is no long term rating of the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating.

17.5.10 For the purpose of nomenclature, the 3 x 3 matrix shall have the following syntax for each matrix cell:

TABLE 2			
Max Credit Risk of scheme →	Class A(CRV ≥12)	Class B (CRV ≥10)	Class C (CRV <10)
Max Interest Rate Risk of the scheme ↓			
Class I: (MD≤1 year)	Relatively Low Interest Rate Risk and Relatively Low Credit Risk	Relatively Low interest rate risk and Relatively Low Credit Risk	Relatively Low interest rate risk and Relatively High Credit Risk
Class II: (MD≤3 years)	Moderate interest rate risk and Risk	Moderate interest rate risk and moderate Credit Risk	Moderate interest rate risk and Relatively

	Relatively Low Credit Risk		High Credit Risk
Class III: Any Macaulay duration	Relatively High interest rate risk and Relatively Low Credit Risk	Relatively High interest rate risk and moderate Credit Risk	Relatively High interest rate risk and Relatively High Credit Risk

17.5.11 For example, if an open ended Short Duration Fund wants to invest in securities such that its Weighted Average Macaulay Duration is less than or equal to 3 years and its Weighted Average Credit Risk Value is 10 or more, it would be classified as a scheme with 'Moderate Interest Rate Risk and Moderate Credit Risk'. The position of the scheme in the matrix shall be displayed by the AMCs as under:

TABLE 3			
Potential Risk Class			
Credit Risk →	Relatively Low (Class A)	Moderate (Class B)	Relatively High (Class C)
Interest Rate Risk↓			
Relatively Low (Class I)			
Moderate (Class II)		B-II	
Relatively High (Class III)			

17.5.12 The maximum interest rate risk which the aforesaid scheme can take would be in terms of the Weighted Average Macaulay Duration of the scheme and the same shall be \leq 3 years. The maximum Weighted Average Credit Risk which the aforesaid scheme can take would have Credit Risk Value of 10 or more. Both the maximum interest rate risk and maximum credit risk would be reflected in the above matrix. By virtue of its placement in this position, the scheme would have the flexibility to take interest rate risk and credit risk below the maximum risk as stated above in Table 2.

17.5.13 The type of the scheme shall be modified to include the above cell selection. For the above example, it shall be as under:

An open ended short term debt scheme investing in instruments with Macaulay duration between 1 year and 3 years (please refer to page no. __) #. A moderate interest rate risk and moderate Credit Risk.

17.5.14 For a scheme placing itself in Class I (i.e. MD \leq 1 year), the maximum residual maturity of each instrument held by the scheme shall be three years. For a scheme placing itself in Class II (i.e. MD \leq 3 years), the maximum residual maturity of each instrument held by the scheme shall be seven years. A scheme placing itself in Class III can invest in instruments of any maturity. For securities issued by central government and state governments, the cap pertaining to maximum residual maturity of each instrument for Class I and Class II shall not be applicable.

17.5.15 With regards to existing holding of perpetual bonds by debt schemes as on June 07, 2021, (including debt instruments with special features viz. subordination to equity which absorbs losses before equity capital and /or convertible to equity upon trigger of a pre-

specified event for loss absorption, for instance Additional Tier I bonds issued under Basel III framework), it has been decided that AMCs shall:

- a. Reckon such bonds as having residual maturity as outlined in Paragraphs 4.4.4, 9.4 & 12.2 of this Master Circular.
- b. Grand-father existing investments in such instruments with the following provision:
 - i. Calculation of Macaulay Duration of the scheme to follow the guidelines in terms of Paragraphs 4.4.4, 9.4 & 12.2 of this Master Circular.
 - ii. If the scheme places itself in Class I or II, and the MD exceeds the stipulated level, then it would be treated as a passive breach and a suitable period may be permitted for regularizing the passive breach. Until regularization, the scheme cannot make any investments that would effectively increase the MD of the portfolio. Calculation of MD for this purpose shall be post exclusion of such instruments having special features. To clarify, if a scheme AUM is INR 100 crores, of which INR 10 crores is in such instruments with special features, the base for calculation of MD for the purpose of PRC will be INR 90 crores. The scheme will continue to maintain the threshold of the cell in which it is positioned on INR 90 crores in line with Class I &/or Class II categorization in line with these provisions.

17.5.16 AMCs shall update their SIDs to reflect the fact that placement of the scheme in one of the cells of PRC matrix does not reflect the scheme holdings pertaining to the aforementioned perpetual bonds with

respect to the MD and maturity thresholds specified above, till the time such bonds are held by the scheme, for pre-existing holding of aforementioned perpetual bonds by debt schemes as on June 07, 2021.

17.5.17 Fresh investments in perpetual bonds (including Additional Tier 1 bonds) can only be made in schemes that are in Class III.

17.5.18 For the debt instruments with call / put options, the deemed maturity will be in terms of Paragraph 9.3 of this Master Circular. For instruments with interest rate reset dates, the interest rate reset date shall not be treated as deemed maturity.

17.5.19 The dynamic aspect of the risk of each scheme would be separately reflected in the Risk-o-Meter of the scheme, which would be published on a monthly basis.

17.5.20 Mutual Funds shall publish the aforesaid matrix in their scheme wise Annual Reports and Abridged Summary.

17.5.21 The aforesaid matrix along with the mark for the cell in which the scheme resides shall be disclosed on:

a. front page of initial offering application form, Scheme Information Documents (SID) and Key Information Memorandum (KIM).

b. common application form – along with the information about the scheme.

the PRC matrix with appropriate mark with respect to Paragraphs 17.5.21.(a) & 17.5.21.(b) above shall be placed in proximity to the caption of the scheme and shall be prominently visible and in bold.

- c. Scheme advertisements – placed in manner by the Mutual Fund and its distributors so as to be prominently visible to investors.

17.6 Investment in units of Mutual Funds in the name of minor through guardian and ease of process for transmission of units⁶²⁶

17.6.1 Process for Investments made in the name of a Minor through a Guardian

- a. [Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed.]⁶²⁷
- aa. [Irrespective of the source of payment for subscription, all redemption proceeds shall be credited only in the verified bank account of the minor, i.e. the account the minor may hold with parent/legal guardian after completing all KYC formalities.]⁶²⁸

ANNEXURE 1: RISK MANAGEMENT FRAMEWORK (RMF) FOR MUTUAL FUNDS⁶⁴⁷

1.0 RMF Standards

- i. AMCs shall establish a RMF for its mutual fund business. The RMF of mutual funds shall have the following characteristics:
 - a. Be structured, efficient and timely.
 - b. Be an integral part of the mutual fund's processes and governance framework, at both the operational and strategic level, and consider all available information i.e. both internal and external.
 - c. Be customized to both AMC's and scheme's risk profile, focuses on potential risks and implements mitigation and control measures to explicitly address uncertainty.
 - d. Be dynamic and flexible enough to identify new risks that emerge and make allowances for those risks that no longer exist.
 - e. Recognize that people and culture have an impact on its effectiveness, and accordingly the framework must communicate and consult with stakeholders throughout.
 - f. Protect reputation.
- ii. The objectives of RMF should assist the management and the Board of Directors of both AMC and Trustees in:
 - a. Demonstrating high standards of due diligence in daily management.
 - b. Promoting proactive management and early identification of risk.
 - c. Assigning and increasing accountability and responsibility in the organization.
 - d. Managing risk within the tolerance limits defined in the RMF.

⁶⁴⁷ SEBI/HO/IMD/IMD-1 DOF2/P/CIR/2021/630 dated September 27, 2021

iii. The RMF of mutual funds shall comprise the following components:

- a. Governance and Organization.
- b. Identification of Risks.
- c. Measurement and Management of Risks.
- d. Reporting of Risks and related Information.

1.1 Governance and Organization

- i. Risk Management shall be an independent and specific function of the AMC.
- ii. There should be at least one CXO level officer identified to be responsible for the risk management of specific functions of the AMC/Mutual Fund. For instance, there should be dedicated risk officers for various key risks such as Investment Risk (by Chief Investment Officer), Compliance Risk (by Chief Compliance Officer), Operational Risk (by Chief Operating Officer or similar functionary responsible for the respective functions overseen), Cyber Security (by Chief Information Security Officer), etc.
- iii. The policy on risk management of the mutual fund should have clarity on roles and responsibility assigned to CXOs and the same needs to be disclosed on their website.
- iv. AMC should have a Chief Risk Officer (CRO), who would be responsible for the overall risk management of the mutual fund operation including the key risks. This is in addition to one CXO level officer responsible for each key risk type. The CXO shall be the “Head of Department” or official of the AMC up to one level below CEO, other than CRO. However, for the overall risk management of the mutual fund, along with the management, both board of AMC and trustees should also be responsible. For this purpose, both the AMC and the trustees should mandatorily have separate Risk Management Committees (RMCs). These committees shall undertake annual

review of RMF at both AMC and scheme level. The CRO should be part of the RMCs. The RMCs shall report to the Board of AMCs and trustees respectively and also recommend long term solutions regarding risk management both at the AMC level as well as the scheme level.

- v. There shall be clear demarcation between the roles and responsibilities of the respective CXOs and the CRO. For instance, while defining the role of CRO, it should be ensured that the CRO would be responsible for the overall governance of the RMF; the investment decisions and the other functions of CIO are not encroached upon and the risk taking ability of CIO in accordance of the scheme objective is not hindered. The CRO or the risk management function of the CRO cannot be entrusted with day to day functioning, the responsibility for which shall lie with the respective CXOs.
- vi. The AMC should maintain risk metric for each mutual fund scheme. The risk metric should incorporate each key risk type like investment risk, liquidity risk, credit risk, etc. along with the path to maintain the targeted risk level. The metric may incorporate evaluation of risk levels vis-à-vis an appropriate benchmark, wherever applicable. The RMCs shall meet at least once in a quarter to review various risks including risk metrics at both the scheme and the AMC level and assist the board of AMCs and trustees in discharging their duties in this regard.

1.2 Identification of Risks

For the identification of risks, the RMF should address the following key questions:

- 1.2.1** What are the different types of risks faced by the mutual fund/AMC and its mutual fund schemes?
- 1.2.2** What is the probability of the happening of each of the above risks, considering the control environment and automation within the AMC, external factors or dependencies such as market infrastructure, outsourced activities, etc. and available historical risk data?
- 1.2.3** What is the likely impact of key risk events, in terms of financial loss, reputation loss, impact on investors/ unit holders and regulatory action?
- 1.2.4** What are the emerging or new risks due to new business lines, new products, statutory changes, changes in external environment or market infrastructure, etc.?
- 1.2.5** The mandatory and recommendatory elements for identification of risks, are outlined below:

1.2.5.1 Mandatory Elements

- i. Each AMC shall identify on an ongoing basis, the specific risks to be covered within the RMF, based on the nature, scale and complexity of its business, the risk profiles and strategies of the funds it manages, and the impact of different risks on its mutual funds business.
- ii. Documented risk profile for each of the key functions incorporating events that might create, enhance, prevent, degrade, accelerate or delay the achievement of objectives, sources of risks and areas impacted due to the event.

1.2.5.2 Recommendatory Elements

- i. Formalized risk appetite statement (incorporating themes such as investment, sales, and operational losses as a result of in-house or outsourced activities) both at the scheme and AMC level.

1.3 Measurement and Management of Risks

1.3.1 AMC should have approved internal policy for measurement of various scheme specific risks (such as governance risk, investment risk, liquidity risk, credit risk) through appropriate risk metrics.

1.3.1.1 It should reflect the Risk-O-Meter and the PRC of the scheme vis-a-vis the scheme benchmark.

1.3.1.2 The policy should have the defined guidelines regarding the appropriate risk metric with role clarity depending on the responsibility of each person.

1.3.2 AMCs should have approved internal policy for measurement of organization wide risk like operational risk, technology risk, legal risk, talent risk, outsourcing risk, etc.

1.3.3 Having identified and documented the applicable risks, the risk management function should develop process/tools to measure and manage those risks. For this purpose, the following needs to be considered for each risk category:

- i. Ascertaining the measurement criteria for each risk category (qualitative and quantitative criteria).
- ii. Documentation of measurement tool(s) for each risk category, i.e. Risk and Control Self-Assessment (RCSA), stress testing, scenario analysis, etc.
- iii. Determination of required frequency of monitoring.
- iv. Developing a process for escalation.
- v. Determination and documentation of remedial or mitigating actions.

Wherever appropriate, it is recommended that AMCs consider documenting risk limits based on their risk appetite.

However, the same may be carried out by independent auditor appointed by trustees, provided that the personnel undertaking the said audit have relevant expertise in the domain of risk management necessary for both the AMC level and the scheme level audit. In such scenario, care must be taken that no conflict arises w.r.t submission of independent audit reports by the auditor to the audit committee and the Board of both the AMC and the trustees for the conduct of their respective audit functions.

- b. The internal auditor should audit both the scheme level and AMC level risks.
- c. The internal auditor should audit compliance with the internal policies of the AMC on risk management as well as the applicable rules and regulations mandated by SEBI on risk management.
- d. For the processes being audited by the internal auditor, a noncompliance rate shall be computed. The non-compliance rate

may be computed based on sampling out of the total number of processes being audited.

- e. The internal auditor should submit the internal audit report to the audit committee of the AMC and the Board of AMC representing the noncompliance rate as audited in the books of accounts of the AMC and its schemes. While submitting to the audit committee, the noncompliance level shall be converted to an overall internal audit score represented in the form of a number providing a quantitative representation of the internal audit report. This number shall be generated considering all key risk types.
 - f. Further, this number shall be compared in subsequent internal audits to analyze the improvement in minimizing the non-compliance level at the AMC. This shall reflect the degree of rectification of noncompliance as done at the level of AMC. Therefore, this number may be represented in the form of a “Rectification Index” in the internal audit report.
- iii. There shall be an RCSA process with defined frequency.
 - iv. There shall be an established mechanism for reporting to the CRO, management and the Board of AMC and Trustees.
 - v. Periodic review of policy frameworks shall be done to ensure that the said policies are up-to-date responding to new strategic priorities and risks and the monitoring mechanisms are working to ensure compliance with the updated policies.
 - vi. Mechanisms are established for management to make use of early warning indicators to identify, evaluate, and respond to changes quickly.
 - vii. Periodic stress tests are performed on critical risks and the impact of risks are assessed based on acceptable tolerances.
 - viii. Based on the management of the risk level as defined by respective risk metric of CXOs, necessary corrective actions must be taken to

address any short comings. The output of the risk level shall be an indicator of the performance of the respective CXOs and shall form one of the inputs for their performance review.

1.3.4.2 *Recommenatory Elements*

- i. There should be independent testing and verification of efficacy of corporate governance standards and business line compliances, validation of the RMF and assurance over the risk management processes by external agency.

1.4 *Reporting of Risks and Related Information*

1.4.1 Adequate risk reporting is an integral part of the risk management framework and it is important that those responsible for different functions within the AMC shall ensure that they exercise sufficient oversight to report on their risk profile and risk management actions.

Board of AMC and Trustees on a quarterly basis. Trustees may forward the results and steps taken to mitigate the risk along with their comments to SEBI in the half-yearly trustee reports.

- iii. Risk reports should consider the following:
 - a. It should be holistic (considering all risk categories identified), timely and accurate.

The following sections incorporate

comprehensive guidelines for management of various key risks by the AMCs, elements of which may overlap with the above mentioned norms and in such cases, the detailed norms specified in the relevant circular must be strictly followed.

- b. These key risks may be divided in to two broad categories.

- c. Setting limits for minimum number of stocks/securities, cash (net of derivatives), stocks/securities vis-a-vis benchmark and Beta range.

2.2 Credit Risk

2.2.1 The credit risk relevant to mutual funds is the issuer credit risk attributable to individual securities and the negative outlook on specific sectors or industries and its consequent impact on the credit exposures.

2.2.2 The mandatory and recommendatory elements for managing credit risk, are outlined below:

2.2.2.1 Mandatory Elements

- i. To manage credit risk, the AMC must have a robust framework comprising:
 - a. An approved and documented Credit Risk Management policy.

- b. Analysis and evaluation of ratings received from multiple credit rating agencies for securities across portfolios, at all points of time i.e. before investing in such securities/instruments or products and also on continuous basis.
- c. Formal procedure for AMCs to carry out their own credit assessment of assets and reduce reliance on credit rating agencies. For this purpose, all AMCs shall have an appropriate policy and system in place to conduct an in-house credit risk assessment or due diligence of debt and money market instruments or products at all points of time i.e. before investing in such instruments or products and also on continuous basis.
- d. Adequate provisions to generate early warning signals (including yield based alerts) on deterioration of credit profile of the issuer. Based on the alerts generated, the AMCs shall take appropriate measures and report the same to trustees.
- e. Concentration limits (counterparty wise, group wise, industry or sector wise, geography wise) monitoring.
- f. Stress testing for credit risk - applying shocks based on rating downgrades, negative outlook on specific industries and the consequent impact on credit exposures.

2.2.2.2 Recommended Elements

- i. Over a period of time and having regard to the size, scale and complexity of the fixed income portfolio, AMCs may consider developing sector level standards for implementing internal credit assessment based models to measure credit risk in line with the prevailing global best practices.

2.3 Liquidity Risk

2.3.1 Thinly traded securities carry the danger of not being easily saleable at or near their real values. Further, all securities run the risk of not being saleable in tight market conditions at or near their real values. Measuring and monitoring liquidity risk is an important aspect of risk management.

2.3.2 The mandatory and recommendatory elements for managing liquidity risk, are outlined below:

2.3.2.1 Mandatory Elements

- i. Liquidity Risk has to be modelled at the level of each scheme (except schemes that do not have continuous liquidity requirements like close ended and interval schemes) and should display alerts pertaining to asset liability mis-match on monthly basis and in line with any other relevant guidelines as specified by SEBI in this regard from time to time. The aforesaid model, should be based on the following key principles:
 - a. The secondary market liquidity of assets of the scheme, shall be incorporated into the liquidity risk management model.
 - b. For debt and money market instruments, the total asset value shall be classified in various maturity buckets for e.g. assets maturing in days 0-30, 30-60, 60-90 and so on. Debt and money market instruments that have a demonstrable secondary market liquidity shall be classified into a lesser maturity bucket depending upon the reasonable time in which particular value of the said instrument can be expected to be offloaded. In the absence of demonstrable secondary market liquidity, the instruments shall be strictly classified based only on the maturity dates.
 - c. Liabilities of scheme shall be modelled in similar buckets based on back testing of historical data for subscription and redemption amounts in the respective schemes. The back testing period should be sufficiently long (say for last 5 years) to include spikes in

redemptions because of market wide events. Organization specific factors/risks that may have a bearing on redemptions should also be factored into the model.

- d. Liquidation of assets at near the value ascribed to each asset in the scheme portfolio in specified period of time, shall be one of the factors to be considered in liquidity risk management.
 - e. The model should incorporate forward looking asset liability mismatch for the scheme at different periods of time at least up to next 30 days.
- ii. The AMC should have policy in place on management of the mis-match in putative liabilities vis-à-vis the liquid assets of each scheme. It should follow the following principles:
- a. There should be an upper limit or threshold on the mis-match in putative liabilities vis-à-vis the liquid assets of each scheme. The upper limit shall be customized depending on size or type of the scheme.
 - b. There should be a system based mechanism to generate alerts as per point(a) above.
 - c. The policy shall include monthly reporting to Board of AMC and Trustees and on quarterly basis to SEBI in a standard format (to be prescribed by AMFI in consultation with SEBI).
 - d. The report shall include the details of alerts generated by the system regarding asset liability mis-match in excess of the defined threshold and subsequent actions taken to address the same. The scheme wise mis-match limits shall be put in the system and all alerts shall be managed effectively.
- iii. Stress testing should be mandatorily conducted for all schemes (excluding close ended and interval schemes) appropriately atleast on monthly basis.

The results of the stress testing may be placed before trustees in every quarter. Trustees may forward the results along with their comments and steps taken, if any, to SEBI in the half-yearly trustee reports. With respect to stress testing of open ended debt schemes, norms have been provided under Paragraph 4.2 of the Master Circular and the same must be adhered to and any future guidelines issued by SEBI in this regard may suitably be followed.

- iv. The policies and procedures implemented by the AMC should include the following:
 - a. Measures and limits for monitoring liquidity risk - cash flow approaches, ratios/tools for monitoring market liquidity (including equity market), etc.
 - b. Measures for managing intra-day liquidity and controls around the same.
 - c. Stress testing policy to align the stress testing requirements mandated by SEBI for mutual funds in India specifically incorporating:
 1. Risk parameters used and methodology adopted to conduct the stress tests.
 2. Procedure to deal with stress events and early warning signals.
 - d. Overview of funding plans/strategy during normal and stressed events, including contingency funding plan.
- v. Systematic classification and evaluation of liquidity risks should be initiated by performing following activities:
 - a. Evaluation and disclosure of liquidity risk associated with schemes/products in the SID.
 - b. Controls around preparation and accuracy of cash flows.
 - c. Management of collateral and margins for execution and settlement of derivatives, securities and money-market instruments.

2.3.2.2 Recommended Elements

- i. AMCs may consider introducing the following measures:
 - a. Judicious use of intraday / overnight borrowing lines to address liquidity / settlement risks faced by the mutual funds. Uncommitted lines of credit available with the AMC may not be useful in real time of stress and therefore while assessing liquidity risk of AMC, these lines should be treated differently than committed lines.
 - b. Internal committee with the mandate to review and provide direction on liquidity risk management.
 - c. Identifying and reporting appropriate and relevant information to the management, for decision making.
 - d. Reporting to the Board of AMC on any other material outcomes and events.

2.4 Governance Risk

implement an exception/escalation process that ensures the problems which are significant, large, aged or growing dealt with at increasingly higher levels of management.

ANNEXURE 9: PRODUCT LABELLING IN MUTUAL FUND SCHEMES – RISK-o-METER⁶⁵⁴

Risk level of a scheme shall be evaluated using the following methodology:

1. The underlying securities of a scheme shall be assigned a value for each of the parameters based on which the risk-o-meter value will be calculated.
2. For the purpose of evaluation of risk level, AUM of the security forming part of the scheme portfolio shall be as on last day of the given month.
3. The evaluation of risk parameters are as detailed below:

i. Debt securities

a) Credit Risk

- Debt securities of schemes shall be valued for credit risk as follows:

TABLE 1	
Credit rating of the Instrument	CREDIT RISK VALUE

AA	3
AA-	4
A+	5
A	6
A-	7
BBB+	8
BBB	9
BBB-	10
Unrated	11
Below investment grade	12

- Based on the weighted average value of each instrument (weights based on the AUM), credit risk value of the portfolio shall be assigned.
- The price of debt instrument to be considered for calculating AUM shall include the accrued interest i.e. dirty price.

⁶⁵⁴ SEBI Circular no. SEBI/HO/IMD/DF3/CIR/P/2020/197 dated October 05, 2020

- For the above purpose, credit rating of the instrument as on last day of the month shall be considered.

b) Interest Rate Risk

- Interest rate risk shall be valued using Macaulay Duration of the Portfolio:

TABLE 2	
Macaulay Duration of the portfolio (years)	INTEREST RATE RISK VALUE

> 0.5 to ≤ 1	2
> 1 to ≤ 2	3
> 2 to ≤ 3	4
> 3 to ≤ 4	5
> 4	6

- For the above purpose, Macaulay Duration of an instrument as on last day of the month shall be considered.

c) Liquidity Risk

- For measuring liquidity risk of the schemes, listing status, credit rating, structure of debt instruments is considered.
- Liquidity risk of the debt securities shall be valued as follows:

- Liquidity Risk Value of a portfolio shall be assigned based on the weighted average of such values (weights based on the AUM) of each instrument.
 - For the above purpose, instruments held by the scheme as on last day of the month shall be considered.
- d) Risk value for the debt portfolio shall be simple average of credit risk value, interest rate risk value and liquidity risk value. However, if the liquidity risk value is higher than the average of credit risk value, liquidity risk value and interest rate risk value then the value of liquidity risk shall be considered as risk value of the debt portfolio.

e) For investment by mutual funds in instruments having short term ratings, the liquidity risk value and the credit risk value shall be based on the lowest long term rating of the instrument of the same issuer as shown above (in order to follow conservative approach) across credit rating agencies. However, if there is no long term rating of the same issuer, then based on credit rating mapping most conservative long term rating shall be taken for a given short term rating.

ii. Equity

a) Market Capitalisation

- Following values shall be assigned to the security for market capitalisation parameter:

TABLE 4

Market Cap of the underlying security	MARKET CAPITALISATION VALUE
Large cap	5
Mid cap	7
Small cap	9

- The market capitalisation data as published by AMFI on six-monthly basis shall be considered.
- Based on the weighted average of the above Market Capitalisation values of each security (weights being AUM of the security), Market Capitalisation Value of a portfolio shall be assigned.

b) Volatility

- Following values shall be assigned to the security based on its volatility:

TABLE 5

Daily Volatility of the Security price (based on the past two years price of the security)	VOLATILITY VALUE
≤ 1%	5
> 1%	6

- Based on the weighted average of above volatility values of each security (weights being AUM of the security), Volatility Value of a portfolio shall be assigned.

If an instrument is traded on multiple stock exchanges, then the most conservative volatility value across stock exchanges for a given month shall be considered.

c) Impact Cost (Liquidity Measure)

- Impact cost shall be considered as a measure for liquidity. Based on the average impact cost of the security for previous three months including the month under consideration following values shall be assigned:

TABLE 6	
Average Impact Cost of the Security for the month	IMPACT COST VALUE
≤ 1%	5
>1 % to ≤ 2%	7
> 2%	9

- Based on the weighted average of impact cost values of each security (weights being AUM of the security), impact cost value of a portfolio shall be assigned.
- If an instrument is traded on multiple stock exchanges, then the impact cost shall be based on average value of impact costs across stock exchanges for a given month.

d) For investment in IPOs or recently listed securities, the following process shall be adopted for arriving at weighted average value for Risk-o-meter:

- Market Capitalisation value: Market capitalisation of a security as on the last trading day of the month shall be compared with that of the market capitalisation of the threshold for large cap, mid cap and small cap as published by AMFI and then market capitalisation parameter of risk shall be valued based on the Table 4 mentioned above.

- Volatility value: For the first three months of trading of a security, the value for volatility shall be assigned as 6. From the subsequent months, volatility shall be calculated based on the available security prices as mentioned at Table 5 above.
 - Impact cost value: For the first three months of trading of a security, the impact cost value shall be assigned as 5. From the subsequent month, impact cost value shall be as mentioned in Table 6 above.
- e) Risk value for equity portfolio shall be simple average of market capitalisation value, volatility value and impact cost value.

iii. Equity Derivatives

- For hedging positions, the underlying security held and its corresponding derivative instrument shall not be included for arriving at risk value. For instance, if XYZ security in cash market is being hedged by its futures instrument, then the XYZ cash market security and short futures position in XYZ security both shall not be considered for arriving at risk value.
- If the quantity of derivative positions taken for hedging purposes are in excess of the underlying position against which the hedging position has been taken, the excess position shall be included while calculating the risk value.

iv. Index Futures and Stock Futures

- For index and stock futures, following values are to be assigned:

TABLE 7	
Value for Index / Stock futures	INDEX / STOCK FUTURES VOLATILITY VALUE
≤ NIFTY near month futures annualized volatility	5
> NIFTY near month futures annualized volatility	6

- Based on the weighted average of above values of each security (weights being AUM of the security), the risk value shall be assigned to the portfolio.

v. Index Options and Stock Options

- For index and stock options, following values are to be assigned:

TABLE 8

Value for Index / Stock options	INDEX / STOCK OPTIONS' IMPLIED VOLATILITY VALUE
≤ India VIX	5
> India VIX	6

- Based on the weighted average of above values of each security (weights being AUM of the security), the risk value shall be assigned to the portfolio.

vi. Other derivative instruments

- If the derivative instrument is used for hedging, then the hedging instrument shall not be included for calculating the risk value only if the quantity of derivative instrument is less than or equal to the quantity of underlying/instrument being hedged. If the derivative instrument position is in excess of the underlying then the excess position shall be considered while calculating the risk value.
- If Interest rate swaps (IRS) are being used for hedging purpose, then IRS shall not be considered for arriving at the risk value.
- For investment in other derivative instruments, such instruments shall be valued as under:

TABLE 9

Daily Volatility of the instrument	VOLATILITY VALUE
≤ 1%	5
>1%	6

- Volatility calculated above is based on daily close prices of past three months of the instrument.

- Based on the weighted average of above values of each security (weights being AUM of the security), the risk value shall be assigned to the portfolio.

vii. REITs & InvITs

- Investment by schemes in REITs and InvITs shall be valued as 7 from risk perspective.
- Based on the weighted average of each security (weights being AUM of the security), the risk value shall be assigned to the portfolio.

viii. Commodities (Gold/Silver) in which mutual funds are permitted to invest:⁶⁵⁵

- Investment in Gold/Silver and gold/silver related instruments by mutual fund schemes shall be assigned a risk score corresponding to the annualized volatility of the price of said commodity. The annualized volatility shall be computed quarterly based on past 15 years' prices of benchmark index of the said commodity and risk score for the commodity shall be in terms of the following table:

Annualized volatility	Risk value on risk-o-meter (Risk)
<10%	3 (Moderate)
10-15%	4 (Moderately High)
15-20%	5 (High)
>20%	6 (Very high)

Illustration: If price of gold has annualized volatility of 18% based on price of gold of past 15 years, then Gold and gold related instruments will have risk value of 5 (High) on risk-o-meter.

⁶⁵⁵ SEBI Circular No. SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/49 dated April 11, 2022

ix. Foreign Securities

- Investment by schemes in foreign securities shall be valued as 7 from risk perspective.
- Based on the weighted average of each security (weights being AUM of the security), the risk value shall be assigned to the portfolio.

x. Mutual Fund Schemes:

- For schemes holding units of other mutual fund schemes, the following values shall be assigned basis the risk-o-meter of underlying schemes:

TABLE 10

Risk as per risk-o-meter	Value
Low	1
Low to Moderate	2
Moderate	3
Moderately High	4
High	5
Very High	6

- The risk value for investment in overseas mutual fund units or ETFs shall be 7.
- Based on the weighted average of each mutual fund scheme held (weights being AUM of the scheme), the risk value shall be assigned to the portfolio.

xi. Cash and Net Current Assets:

- Cash and Net Current Assets, shall be valued as 1 from risk perspective.

4. Risk-o-meter value

- Based on the above calculations, the risk value arrived upon shall be mapped to the risk level mentioned in the table below and the same may be depicted in the risk-o-meter:

TABLE 11	
Risk Value	RISK LEVEL AS PER RISK-O-METER
≤ 1	Low
$>1 \text{ to } \leq 2$	Low to Moderate
$>2 \text{ to } \leq 3$	Moderate
$>3 \text{ to } \leq 4$	Moderately High
$>4 \text{ to } \leq 5$	High
>5	Very High

5. Illustrations:

In order to illustrate the above process, following are a few illustrations:

1. Debt scheme

- Consider a bond scheme category having 10 debt securities with following attributes:
 - At the portfolio level, the average Macaulay Duration is 1.41

TABLE 12			
Securities held by the scheme	Weight as % of AUM	Credit rating	Structure
A	10%	AAA - PSU	No additional feature/structure

DEBT- Security A to J

- Based on the above portfolio, following shall be parameter based valuing of securities held by the scheme:

TABLE 13

Securities held by the scheme	Weight as % of AUM	Credit Risk value	Interest Rate Risk Value	Liquidity risk value
A	10%	1		1
B	10%	4		7

J	10%	1		1
TOTAL*		3.5	3	4.8

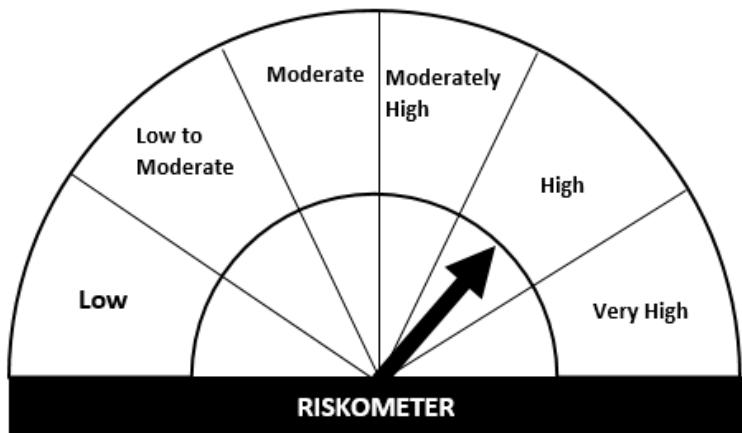

*Total is calculated as weighted average with weights based on AUM of the instrument in the scheme as under:

TABLE 14

Parameter	Average	Value
Credit risk	$0.1 \times 1 + 0.1 \times 4 + 0.1 \times 6 + 0.1 \times 8 + 0.1 \times 3 + 0.1 \times 2 + 0.1 \times 6 + 0.1 \times 3 + 0.1 \times 1 + 0.1 \times 1$	3.5
IR Risk	1×3	3
LR value	$0.1 \times 1 + 0.1 \times 7 + 0.1 \times 7 + 0.1 \times 9 + 0.1 \times 5 + 0.1 \times 5 + 0.1 \times 7 + 0.1 \times 4 + 0.1 \times 2 + 0.1 \times 1$	4.8
Simple Average		3.8

PORTFOLIO RISK-O-METER VALUE:

- Simple average of the above three parameters comes out to 3.8 ($[3.5+3+4.8]/3$)
- Since the liquidity risk value of 4.8 is higher than the average value of above three parameters i.e. 3.8, the risk value assigned to the scheme will be 4.8. Hence, the risk level as per Risk-o-meter is High.
- Therefore, risk-o-meter for the abovementioned debt scheme would be **High**, and shall be as depicted below:

2. Equity scheme

- Consider an Equity scheme having 10 equity securities with following attributes:

TABLE 15

Securities held by the scheme	Weight as % of AUM	Market Cap	Volatility	Impact cost
A	10%	Large Cap	0.01%	0.2%

H	10%	IPO	-	-
I	10%	Small Cap	1.7%	2.5%
J	10%	Cash	-	-

- Based on the above portfolio, following shall be the scoring of the securities held by the scheme across parameters:

EQUITY – Security A to I

TABLE 16				
Securities held by the scheme	Weight as % of AUM	Market Cap Value	Volatility Value	Impact cost Value
A	10%	5	5	5
B	10%	5	6	5

G	10%	5	5	5
H*	10%	7	6	5
I	10%	9	6	9
TOTAL	90%	6.6	5.8	6.3

* Assuming the market cap of the security at the time of listing is falling under Mid cap as per the market cap data published by AMFI, a value of 7 is considered. Volatility value and Impact cost value are considered as 6 and 5 respectively.

- The TOTAL mentioned above is calculated as under:

TABLE 17		
Parameter	Average	Value
Market Cap	$0.1 \times 5 + 0.1 \times 5 + 0.1 \times 7 + 0.1 \times 7 + 0.1 \times 7 + 0.1 \times 7 + 0.1 \times 5 + 0.1 \times 7 + 0.1 \times 9$	6.6
Volatility Value	$0.1 \times 5 + 0.1 \times 6 + 0.1 \times 5 + 0.1 \times 6 + 0.1 \times 6$	5.8
Impact cost value	$0.1 \times 5 + 0.1 \times 5 + 0.1 \times 7 + 0.1 \times 5 + 0.1 \times 9$	6.3
Simple Average		6.2

- Simple average of the above three parameters comes out to 6.2
[(6.6+5.8+6.3)/3]

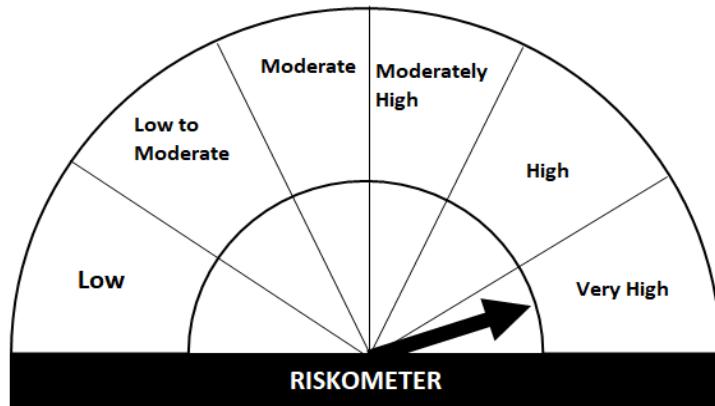

CASH – Component J

- Further, cash component is valued as 1.

PORTFOLIO RISK-O-METER VALUE:

- Hence, the average for the total portfolio is $6.2 + 0.1 \times 1 = 6.3$

- Since the value of risk is higher than 5, it shall fall into range of Very High Risk.
- Therefore, risk-o-meter for the abovementioned equity scheme would be **Very High**, and shall be as depicted below:

3. Multi asset scheme:

- Consider a Multi Asset category scheme having 10 securities with following attributes:

TABLE 18

- As interest rate swap instrument was used for hedging, it is not included while calculating the risk value.
- Macaulay Duration of debt scheme portfolio (D, E & F) is 2.5 years
- Based on the above portfolio, following shall be the valuing of the securities held by the scheme across parameters:

TABLE 19

Simple Average		1.37

- For debt component, Simple average of the three parameters comes out to 1.37.
- Since the liquidity risk value of 1.4 is higher than the average value of above three parameters i.e. 1.37, the risk value assigned to the scheme will be 1.4.

GOLD and REITS - H and I

TABLE 24

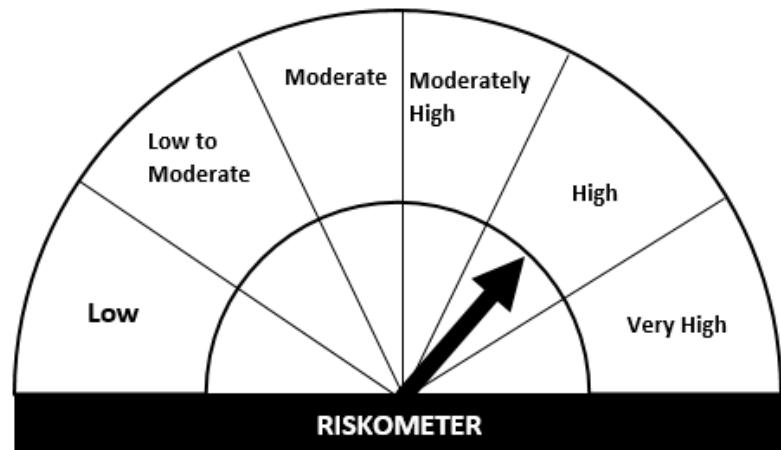

Securities held by the scheme	Weight as a % of AUM	Risk Value	Value

PORTFOLIO RISK-O-METER VALUE:

- The final weighted average risk value for the portfolio is as under:

$$2.2 + 1.4 + 0.4 + 0.7 = 4.7$$

- Since the value of risk is higher than 4, it shall fall into range of High Risk.
- Therefore, risk-o-meter for the abovementioned scheme would be **High**, and shall be as depicted below.

**ANNEXURE 10: STEWARDSHIP CODE FOR ALL MUTUAL FUNDS IN
RELATION TO THEIR INVESTMENT IN LISTED EQUITIES⁶⁵⁶**

- **Principle 1**

Institutional Investors should formulate a comprehensive policy on the discharge of their stewardship responsibilities, publicly disclose it, review and update it periodically.

Guidance

Stewardship responsibilities include monitoring and actively engaging with investee companies on various matters including performance (operational, financial, etc.), strategy, corporate governance (including board structure, remuneration, etc.), material environmental, social, and governance (ESG) opportunities or risks, capital structure, etc. Such engagement may be through detailed discussions with management, interaction with investee company boards, voting in board or shareholders meetings, etc.

Every institutional investor should formulate a comprehensive policy on how it intends to fulfill the aforesaid stewardship responsibilities and disclose it publicly. In case any of the activities are outsourced, the policy should provide for the mechanism to ensure that in such cases, stewardship responsibilities are exercised properly and diligently.

The policy should be reviewed and updated periodically and the updated policy should be publicly disclosed on the entity's website. A training policy for personnel involved on implementation of the principles is crucial and may form a part of the policy.

⁶⁵⁶ SEBI Circular no. CIR/CFD/CMD1/ 168 /2019 dated December 24, 2019

- **Principle 2**

Institutional investors should have a clear policy on how they manage conflicts of interest in fulfilling their stewardship responsibilities and publicly disclose it.

Guidance

As a part of the aforesaid comprehensive policy, institutional investors should formulate a detailed policy for identifying and managing conflicts of interest. The policy shall be intended to ensure that the interest of the client/beneficiary is placed before the interest of the entity. The policy should also address how matters are handled when the interests of clients or beneficiaries diverge from each other.

The conflict of interest policy formulated shall, among other aspects, address the following:

1. Identifying possible situations where conflict of interest may arise. E.g. in case of investee companies being associates of the entity.
2. Procedures put in place by the entity in case such conflict of interest situations arise which may, *inter alia*, include:
 - a. Blanket bans on investments in certain cases
 - b. Having a '*Conflict of Interest*' Committee to which such matters may be referred to.
 - c. Clear segregation of voting function and client relations/ sales functions.
 - d. Policy for persons to recuse from decision making in case of the person having any actual/ potential conflict of interest in the transaction.
 - e. Maintenance of records of minutes of decisions taken to address such conflicts.
3. Periodical review and update of such policy and public disclosure.

- **Principle 3**

Institutional investors should monitor their investee companies.

Guidance

As a part of the aforesaid comprehensive policy, institutional investors should have a policy on continuous monitoring of their investee companies in respect of all aspects they consider important which shall include performance of the companies, corporate governance, strategy, risks etc.

The investors should identify the levels of monitoring for different investee companies, areas for monitoring, mechanism for monitoring etc. The investors may also specifically identify situations where they do not wish to be actively involved with the investee companies e.g. in case of small investments.

The investors should also keep in mind regulations on insider trading while seeking information from the investee companies for the purpose of monitoring.

Accordingly, the institutional investors shall formulate a policy on monitoring specifying, *inter-alia*, the following:

1. Different levels of monitoring in different investee companies. E.g. companies where larger investments are made may involve higher levels of monitoring vis-à-vis companies where amount invested is insignificant from the point of view of its assets under management.

2. Areas of monitoring which shall, inter-alia, include:
 - a. Company strategy and performance - operational, financial etc.
 - b. Industry-level monitoring and possible impact on the investee companies.
 - c. Quality of company management, board, leadership etc.

- d. Corporate governance including remuneration, structure of the board (including board diversity, independent directors etc.) related party transactions, etc.
 - e. Risks, including Environmental, Social and Governance (ESG) risks
 - f. Shareholder rights, their grievances etc.
3. Identification of situations which may trigger communication of insider information and the procedures adopted to ensure insider trading regulations are complied with in such cases.

- **Principle 4**

Institutional investors should have a clear policy on intervention in their investee companies. Institutional investors should also have a clear policy for collaboration with other institutional investors where required, to preserve the interests of the ultimate investors, which should be disclosed.

Guidance

Institutional investors should have a clear policy identifying the circumstances for active intervention in the investee companies and the manner of such intervention. The policy should also involve regular assessment of the outcomes of such intervention. Intervention should be considered even when a passive investment policy is followed or if the volume of investment is low, if the circumstances so demand.

Circumstances for intervention may, inter alia, include poor financial performance of the company, corporate governance related practices, remuneration, strategy, ESG risks, leadership issues, litigation etc.

The mechanisms for intervention may include meetings/discussions with the management for constructive resolution of the issue and in case of escalation

thereof, meetings with the boards, collaboration with other investors, voting against decisions, etc. Various levels of intervention and circumstances in which escalation is required may be identified and disclosed. This may also include interaction with the companies through institutional investor associations (E.g. AMFI). A committee may also be formed to consider which mechanism to be opted, escalation of matters, etc. in specific cases.

- **Principle 5**

Institutional investors should have a clear policy on voting and disclosure of voting activity.

Guidance

To protect and enhance wealth of the clients/ beneficiaries and to improve governance of the investee companies, it is critical that the institutional investors take their own voting decisions in the investee company after in-depth analysis rather than blindly supporting the management decisions.

This requires a comprehensive voting policy to be framed by the institutional investors including details of mechanisms of voting, circumstances in which voting should be for/against/abstain, disclosure of voting, etc. The voting policy, voting decisions (including rationale for decision), use of proxy voting/voting advisory services, etc. should be publicly disclosed.

The voting policy shall, *inter-alia*, include the following:

1. Mechanisms to be used for voting (e.g. e-voting, physically attending meetings, voting through proxy, etc.)
2. Internal mechanisms for voting including:
 - a. Guidelines on how to assess the proposals and take decision thereon

- b. Guidelines on how to vote on certain specific matters/ circumstances including list of such possible matters/circumstances and factors to be considered for a decision to vote for/ against/ abstain
 - c. Formulation of oversight committee as an escalation mechanism in certain cases
 - d. Use of proxy advisors
 - e. Policy for conflict of interest issues in the context of voting
- 3. Disclosure of voting including:
 - a. Periodicity of disclosure
 - b. Details of actual voting for every proposed resolution in investee companies i.e. *For, Against or Abstain*
 - c. Rationale for voting
 - d. Manner of disclosure – e.g. in annual report to investors, quarterly basis on website etc.
- 4. In case of use of proxy voting or other voting advisory services, disclosures on:
 - a. Scope of such services
 - b. Details of service providers
 - c. Extent to which the investors rely upon/use recommendations made by such services

- **Principle 6**

Institutional investors should report periodically on their stewardship activities.

Guidance

Institutional investors shall report to their clients/ beneficiaries periodically on how they have fulfilled their stewardship responsibilities as per their policy in an easy-to-understand format.

However, it may be noted that the compliance with the aforesaid principles does not constitute an invitation to manage the affairs of a company or preclude a decision of the institutional investor to sell a holding when it is in the best interest of clients or beneficiaries.

Institutional investors shall report periodically on their stewardship activities in the following manner:

1. A report may be placed on website on implementation of every principle. Different principles may also be disclosed with different periodicities. E.g. Voting may be disclosed on quarterly basis while implementation of conflict of interest policy may be disclosed on an annual basis. Any updation of policy may be disclosed as and when done.
2. The report may also be sent as a part of annual intimation to its clients/beneficiaries.

FRAMEWORK⁶⁵⁸

1. Market Making in ETFs

The following broad points shall be considered while designing the market making framework in ETFs:

1.1. Obligations of AMC: Obligations shall, *inter-alia*, include:

- 1.1.1. AMCs to enter into agreement with at least two Market Makers (MMs) for each ETF.
- 1.1.2. AMCs may select MMs based on various criteria including experience in the capital market, capital adequacy, net worth, infrastructure, volume of business, etc.

1.2. Obligations and responsibilities of a Market Maker: Obligations shall, *inter-alia*, include:

- 1.2.2. **Minimum timeframe:** The minimum time frame for which the MM is required to make the market shall be 75% of the time during market hours of a trading day. Further, MM shall also be mandated to be present in the Best Buy/Sell order/quote for e.g. top 5 buy/sell order/quote.

1.3. Information to be collected from Stock Exchanges: AMCs to collect the following information from SEs on daily basis:

⁶⁵⁸ SEBI Circular No. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022

- 1.3.1. Total quantity traded by the MM in a particular ETF and its % trade to total quantity traded in the market of that ETF.
- 1.3.2. Minimum, Maximum and Median prices at which the MM has executed the trades.
- 1.3.3. Minimum, Maximum and Median spread at which the MM has provided the quotes.

1.4. Compensation of MM: The issue of compensation is to be decided between the AMC and the MM. It may have recourse to factors such as trading volume, bid-ask spread in units of ETFs, and such other information as may be required to formalize performance based incentive structure.

ANNEXURE 16A: APPROACH TO PURCHASE PRICING⁶⁶²

Approach to purchase pricing:

1. While it may not be possible to pre-empt the events and scenarios prevailing at the point of time when purchase of securities is being undertaken by CDMDF, the investment policy may provide for following indicative factors for determining purchase price of corporate debt securities:
 - 1.1. Valuation policies prescribed for Mutual Funds (based on the principles of fair valuation).
 - 1.2. Previous day's valuation of securities by valuation agencies before the date of Purchase.
 - 1.3. Average 10 days valuation prior to start of market dislocation.
 - 1.4. Mark-up in yield over previous day may be limited to arrive at floor price.
For eg: it may be 25/50/75 bps over AAA/AA/Below AA securities respectively.
 - 1.5. Consideration of Spread over benchmark/ spread over sovereign yields.
 - 1.6. Qualitative factors that may have bearing on arriving at fair price.
2. The investment policy shall be duly approved & reviewed periodically by the Board of Trustee, Investment Committee & Governance Committee. CDMDF shall adhere to investment framework laid down in the investment policy & the fund documents.
3. However, in case the Investment Manager is at variance from the aforesaid factors, they may, after recording reasons in writing and approval from Investment Committee, take such price as deemed fit with an objective of achieving the fair pricing (adjusted for liquidity risk, interest rate risk and credit risk). Such instances shall be apprised to Governance Committee and Board of Trustees on a regular basis.
4. Investment framework of CDMDF:
 - 4.1. CDMDF would buy securities from secondary market of only investment grade, listed and having residual maturity of upto 5 years.
 - 4.2. CDMDF shall not buy any unlisted, below investment grade or defaulted debt securities or securities in respect of which there is a material

⁶⁶² Inserted by SEBI Circular No. SEBI/HO/IMD/POD2/P/CIR/2023/128 dated July 27, 2023

possibility of default or adverse credit news or views. The rationale for the same shall be documented.

- 4.3. Purchase of securities to be done as per the above fair pricing guidelines to be adjusted if considered appropriate by the IM for liquidity risk, interest rate risk, and credit risk. Buying/trading to be at fair price but not at distress price.
- 4.4. Selling at breakeven/profit as market stabilize, to reduce borrowing as soon as possible.
- 4.5. Valuation of portfolio shall be governed by existing norms on valuation under the Mutual Fund regulatory framework.

ANNEXURE 16B: LOSS WATERFALL ACCOUNTING FOR CDMDF⁶⁶³

Based on deliberations with Mutual Fund industry, the following shall be the approach for reflection of waterfall in the NAV of units of CDMDF

A. There shall be three classes of units to be allotted by CDMDF, which shall be as follows:

1. Class A1 and Class B units shall be allotted to AMCs and Sponsor/IM respectively (against one time contribution of 0.02% of AUM of specified debt schemes and Sponsor/IM commitment). Class A1 units and Class B units are treated at par and referred as Class A1 units only.
2. Class A2 units shall be allotted to specified debt schemes (contributing 0.25% of AUM of specified debt schemes)
3. Class A3 units shall be allotted to Mutual Fund schemes selling debt securities to the Fund (where 10% of the consideration is in the form of units of CDMDF, called A3 units)

B. Daily NAV should reflect the fair value of each unit class including the effect of differential treatment of A3 unit class. The loss waterfall based on CDMDF Framework is as follows:

Level of loss absorption	Particulars	Hereinafter referred as
1st	Up to 10% by MF schemes selling debt securities to the Fund (i.e., equivalent to the units outstanding of the selling MF schemes issued to them against sale of securities to CDMDF)	Class A3 units
2nd	Contribution of specified debt oriented MF Schemes and AMCs	Class A1 and A2 units
3rd	Government Guarantee	NA

C. The following process shall be followed:

⁶⁶³ Inserted by SEBI Circular No. SEBI/HO/IMD/POD2/P/CIR/2023/128 dated July 27, 2023

1. All profits/losses/income/gains/expenses to be apportioned to A1 and A2 unit class in ratio of their AUM during the normal times.
2. A3 units to be allotted at the same NAV as that of A1 & A2 at the time of opening of market dislocation.
3. All profits/losses/income/gains/expenses (including cost of leverage) to be apportioned to all the 3 class of units during the market dislocation and subsequently till A3 units exits (i.e A1/A2/A3), except that the NAV of A1 and A2 should not drop below their opening NAV (opening NAV at the time of market dislocation). Since A1 and A2 units are to be protected at their opening NAV to that extent the excess/unabsorbed loss/expense would be debited to only A3 unit class. This would mean the NAV of A3 units could drop below the NAV of A1&A2
4. Any subsequent profits/gains/income will be first credited to the A3 unit class to an extent that they come back at par with A1 & A2 NAV, and then the balance to be apportioned to all the three unit class.
5. A3 units will not get any exit till there is an outstanding portfolio from market dislocation and leverage is completely paid.
6. Any subsequent allotment of A3 units would be at the same NAV as that of the existing A3 units (if they exist), otherwise at opening NAV of A1 and A2. There will be only one class/bucket of A3 units irrespective of whether they were issued in subsequent tranche of purchase during a particular phase of market dislocation or were issued during another phase of market dislocation. Therefore any adjustment for loss/expense will be carried out to the entire bucket o A3 units irrespective of when they were allotted.
7. There will not be any segregation of portfolio linking to different phase or tranches of purchase during the market dislocation, entire portfolio will be one common pool, both during the normal times or during the market dislocation including if there is any security that exist from normal times and is continued during the market dislocation
8. The accounting of A3 and certain adjustments of NAV may require manual workings by the fund accountant and will not be completely system driven. Such manual workings can be subject to second check by the concurrent auditor.

D. The above is as per various scenarios that have been envisaged currently. There may be a need that may arise with some other scenarios emerging and the same would be dealt with appropriately through relevant committee.
